The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 7-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Kondo et al.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 14 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kondo et al.

Each of these rejections are maintained for reasons of record. Applicants' arguments concerning the changes in the essential nature of the compositions by the addition of additional ingredients by Kondo et al should be submitted in affidavit form. Applicants' arguments concerning an additional process step by Kondo et al are not persuasive. Applicants' claims do not exclude additional process steps.

Claims 16 and 17 are allowed.
